

AKIL QAYEM

S t u d e n t

PROFILE

A forward thinking, open minded, eager student studying Computer science, with the aim of majoring in data science and Artificial Intelligence in order make a name for himself with strong moral compass and the ability to adapt and work as a team with fellow peers.

Here are my objectives below:

Short term Objectives: (Within the next 4-6 years).

- Start studying and get my bachelors and masters in data science and AI
- Earn more work and practical experience via internships and other opportunities.

Long term Objectives: (Within the next 7-8 years).

- To be entirely self-sufficient and have multiple streams of income.
- To become financially stable. Furthermore, learn and extend my skillset with various other skills within and outside the field of computer science.

PERSONAL INFORMATION

Nationality:
Bangladeshi

Date Of Birth:
9th May 2004

Driver's License:
LMV

Address:
Port Saeed, Deira, Dubai, UAE

HOBBIES

- Learning programs and coding whenever given the opportunity with my peers.
- Creating various trinkets and circuits via reused parts from old appliances.
- Exercising via either the gym, cycling, badminton or calisthenics.
- Reading various novels and watching documentaries on a wide range of topics.
- Cooking and baking, testing out new recipes in order to expand my skillset.

EXTRACURRICULAR ACTIVITIES

BSOE competition (February 2019-July 2019)

- **Team Member**
- It was a national competition held in the UAE to spread awareness regarding the environment and various methods to protect and maintain it. We've made and distributed brochures from recycled papers, held surveys, recorded and shared educational skits and videos.

STEM Projects (July 2022-July 2019)

- **Volunteer**
- Volunteered and assisted in organizing the STEM project for the juniors at school.

Volunteering as an assistant teacher and Substitution teacher (September 2021-July 2022)

- **Volunteer**
- Substituted and taught younger classes with my peers whenever free, assisted and helped juniors in any doubts they may have had.

Minecraft Coding

- **Student**
- Completed the basic coding tutorial from <https://code.org/minecraft>

C# Programming (August 2019-September 2019)

- **Student**
- Researched and studied the bare basics of the C# programming language from YouTube and various other sources such as <https://www.youtube.com/@Brackeys>

Marathon (American University of Sharjah)

- **Student**
- Ran a marathon held by AUS, was attended by me and my peers from school.

Particle Physics Masterclass (University of Sharjah)

- **Student**
- Attended an introduction to particle physics that was organized by UOS, where we were taught the basics of particle physics, workings of a particle collider and the basics of using their Hypatia software.

FEW OF MANY ACHIEVEMENTS:

- **2022-2023:** Received Various awards and certificates due to remarkable grades and results such as the Yalla Schools Awards of excellence for AS level achievements and Award received from the TWS, Dubai for excellence in IGCSE results.
- **2014-2022:** Positions in the school and class councils ranging from class President, Vice presidents, Wellbeing monitor to the Head of Vice Presidents and Monitors
- **2014-2023:** Student of the month for various months through out each year level due to punctuality, affability, responsibility and other mannerisms

Certificates will be provided upon request.
